HASSAN ADIL HASSAN

Senior Data Analyst | Data Science | Experimentation | Analytics Engineering

Chicago, IL • (773) 593-7885 • hassan5198@gmail.com • linkedin.com/in/hassan-hassan-657a53155

PROFESSIONAL SUMMARY

Data Analyst/Scientist with 6+ years of experience delivering data analytics, data science, and analytics engineering work in product and healthcare settings. Build KPI dashboards and stakeholder reporting in Tableau, analyze funnels, cohorts, and retention, and design and analyze A/B tests across multiple experimentation frameworks. Apply statistical modeling to behavioral and operational data, and build trusted dbt and SQL data models that translate complex data into clear recommendations for product, marketing, and clinical stakeholders. MPH in Epidemiology & Biostatistics, with a strong foundation in statistical methods and research design.

EDUCATION & CERTIFICATION

Master of Public Health (MPH), Epidemiology & Biostatistics, **University of Illinois - Chicago** May 2022
Bachelor of Arts (BA), Medicine, Health, and Society, **Vanderbilt University** | Minors: Arabic, Economics May 2020
Certification: Tableau Desktop Certification

TECHNICAL SKILLS

Programming & Data Platforms: Python, SQL, BigQuery, Tableau, SAS, R, Excel, Tableau Pulse, MixPanel, AppsFlyer, JIRA, Power BI, Scribe

Data Science & Statistical Methods: A/B Testing, Bayesian Experimentation, Hypothesis Testing, Statistical Modeling, Machine Learning (ML), Bootstrap Resampling, Logistic Regression, Survival Analysis, Retention Analysis

Analytics Engineering & AI: dbt, Data Transformation, Gold-Layer Data Modeling, Medallion Architecture, Data Quality Testing and Validation, Reusable Data Pipelines, Large Language Models (LLMs), AI-Assisted Analytics, Natural Language Querying (NLQ)

Research: Epidemiology, Biostatistics, Clinical Research Methods, Clinical Trial Design, Survey Design, REDCap, Data Management

PROFESSIONAL EXPERIENCE

Data Analyst, Product Analytics & Data Science Jan 2023 – Present
Kooth / Soluna US *Promoted from Junior Data Analyst*

- Serve as an embedded analytics partner for Product and collaborate with Marketing, Clinical, and cross-functional stakeholders to define metrics, develop analytical approaches, and shape approaches that inform business strategy.
- Design and analyze A/B tests and causal-inference studies in Python and SQL, measuring the impact on conversion, activation, retention, and engagement.
- Build KPI dashboards and conduct funnel, cohort, and retention analyses in Tableau to track product performance, surface trends, and inform roadmap decisions.
- Build and maintain dbt and BigQuery data models, document business logic, and add data quality tests to create trusted datasets for analytics teams.
- Translate complex analyses into clear recommendations for non-technical stakeholders to guide data-driven decisions.

Data Analyst III Aug 2022 – Jan 2023
Qlarant *Easton, MD*

- Analyzed Medicare Part C and D prescription drug claims and provider data to detect fraud, waste, abuse, and program vulnerabilities.
- Extracted, transformed, and analyzed large-scale healthcare datasets from the Integrated Data Repository (IDR) using SAS, SQL, and Excel to support investigations and program oversight.
- Forecasted program data to identify quality improvement opportunities and build reports and visualizations for stakeholders.

Research Assistant Intern, Ruth M. Rothstein CORE Center, Cook County Health Jun – Aug 2021

- Conducted retrospective cohort analysis in SAS of neighborhood-level social vulnerability among young sexual minority men and transgender people living with HIV.

COVID-19 Contact Tracer, University of Illinois Chicago Dec 2020 – May 2022

- Conducted case investigations and assigned risk categories using structured criteria, maintaining systematic records in REDCap.
